NEWS RELEASE

Long Range Completes First Grab Sample Work At Simms Ridge Property, Newfoundland

CALGARY, ALBERTA – November 24, 2021 – Long Range Exploration Corporation ("LREX" or the "Company") is pleased to announce that a total of 26 rock samples were recently collected over the Simms Ridge Property by Planet X Exploration Services Ltd. The samples will be delivered to Eastern Analytical Ltd., Springdale, NL an ISO/IEC 17025:2005 & ISO 9001:2015 certified laboratory and independent issuer.

Darrell Brown, Chief Executive Officer of LREX, commented, *"These samples were gathered to enable detailed descriptions out of the field and were secured in a manner where sample integrity and provenance was maintained for future analytical procedures. Even with significant historical records it is important to benchmark the past data with present day methodology and this is our first work on the ground."*

About Long Range Exploration Corporation

Long Range is a Calgary-based mineral exploration company focused on the discovery and development of structurally controlled orogenic gold projects in Newfoundland, Canada. The Company is presently concentrating its efforts on its wholly owned Simms Ridge Property immediately south of Pollard's Point, located within the Humber Zone of the Newfoundland Appalachian Mountain Belt.
